

WELCOME

**Williams Parkway between east of North
Park Drive and west of Harridine Road**

**Appendix 'B' - Colour Options for staining
existing Noise wall**

Date: June 23, 2021

Project study Area

Methodology and cost:

- Preliminary cost of applying one coat of stain with preferred colour on noise wall is approximately \$300,000;
- Stain the noise wall with one coat every 10 years part of the maintenance subject to field inspection;
- Would not loose the acoustic properties of noise wall;
- Staff explored various options of colours and three options are recommended in addition to do nothing option;

Colour options distance view:

Existing condition

Option 1: medium-tone, warm grey background and darker-tone, neutral green trees

Option 2: medium-tone, neutral grey background and darker-tone, neutral grey trees

Option 3: medium-tone, warm grey background and darker-tone, neutral grey trees

Colour options - Rendering:

Existing condition

Option 1: medium-tone, warm grey background and darker-tone, neutral green trees

Option 2: medium-tone, neutral grey background and darker-tone, neutral grey trees

Option 3: medium-tone, warm grey background and darker-tone, neutral grey trees

Recommendation and Go Forward Plan:

- Seek Council approval whether to stain the noise wall or not;
- Seek Council approval for Public consultation through the City of Brampton website to receive public feedback on the most popular colour of noise wall;
- Seek Council approval to proceed with design, tender and construction for stain of existing Noise wall with most popular colour based on Public feedback;

Thank You
