

**NOTICE OF STUDY COMMENCEMENT****EAST-WEST CONNECTION****Mount Pleasant GO Station to West of Mississauga Road  
Municipal Class Environmental Assessment Study****The Study**

The City of Brampton has initiated a Municipal Class Environmental Assessment (EA) process to facilitate the continuation of the existing Mount Pleasant GO Station access road to lands west of Mississauga Road. The study will examine the potential alternative alignments for an east-west collector road west of Mississauga Road and will identify the effects on the environment for the alternative designs, and determine the preferred alternative.

**The Process**

This notice signals the commencement of the Municipal Class Environmental Assessment. The objective of this study is to complete Phase 3 and 4 of the Municipal Class EA process in accordance with the planning and design process for Schedule 'C' projects as outlined in the Municipal Class EA (October 2000, as amended in 2007 & 2011), which is approved under the Ontario EA Act.

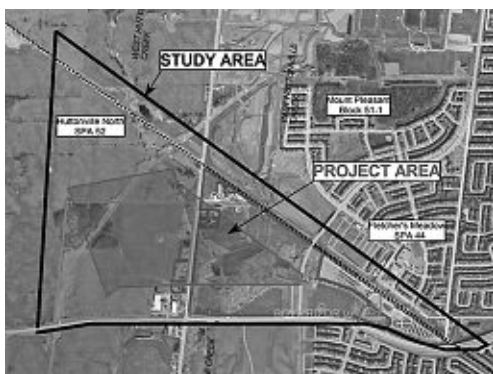

A key component of the study will be consultation with interested stakeholders (public and agencies). Two Public Information Centres (PICs) will be held to present the project, review the study scope and discuss issues related to the project including alternative solutions, evaluation criteria, and environmental impacts and mitigation measures. Details regarding the forthcoming PICs will be advertised as the study progresses. Upon completion of the study, an Environmental Study Report (ESR) will be prepared and made available for public review and comment.

**Comments Invited**

If you have any questions or comments regarding the study, or wish to be added to the study mailing list, please contact either of the following project team members:
